

EXPERIENCE

Microsoft – Senior UI/UX Designer

SEPTEMBER 2024 – PRESENT

Windows Design Systems Visual Systems Libraries & Guidance Icons & Illustration

- Define and evolve visual language across Windows product surfaces, establishing the quality bar for system-wide consistency.
- Lead exploratory concept and vision work for both product teams and Windows Design Systems, pushing explorations into product before patterns scale into libraries.
- Own a growing set of system workstreams beyond marketing as scope has expanded: expressive assets and icon theming, the WDS illustration library, and the tooling and plugins behind them.
- Build and scale the marketing compendiums, component libraries, and asset repositories for Windows, covering the full landscape of product and feature surfaces, and used across Design Systems, product design and marketing.
- Build and maintain production-aligned Figma libraries that product design partners carry through to implementation.
- Develop system documentation, usage guidelines and adoption workflows; contribute to accessibility, visual hierarchy, typography and color standards at scale.

Amazon – Visual Experience Design Lead

JULY 2020 – JULY 2024

Amazon Business Payments Product Systems Creative Direction

- Led visual direction and creative development for Amazon Business Payments, evolving the visual language across the product family.
- Redesigned the U.S. credit card product end to end, from visual exploration through production-ready assets.
- Built and maintained the shared component and asset libraries the product family designed from.
- Held visual consistency across international markets and localized surfaces.
